

Maximizing our \$7 billion in capital investments

Continued investment in capital infrastructure is critical to realizing the full potential of any service investment. Alternatively, inadequately funding operations will mean the region will not realize the full value of this \$7 billion investment. There are almost 600 projects in the 5-year Capital Program, each bringing jobs, more access to opportunity, and more frequent and reliable service to communities across the six-county region.

Pace

— Pace Capital Bus Line Project

● Pace Capital Projects at Specific Locations

○ Single Project

● Multiple Projects
